Galactic Archetype: The Innocent

I am the Innocent—Yellow Seed. Known also as “the sacred fool” I am the Seed Being of Cosmic Awareness. My number is 4. Clear, Self-Existing, Inner Awareness is my nature.

To know me is to rise in the strength of the Spirit.

I hold the right centripetal extremity that controls the power of universal awareness to evolve the powers of cosmic intelligence. I open Universal Light gate to the Court of the Pathfinder.

The Four Primal Archetypes correspond to the Input Time Cell of the Dreamspell. They are the four original ones emanated from the Universe of Light corresponding to the most fundamental orientation of time space. They each command three archetypes to govern one each of the four cosmic courts of galactic Culture. Once we have established the four primal archetypes then we descend to the fourth-dimensional stage of the journey

Solar Ring of the Yellow Crystal Seed Year

I dedicate in order to target
Universalizing Awareness
I seal the input of Flowering
With the Crystal Tone of Cooperation
I am guided by the Power of Intelligence
I am a Galactic Activation Portal, Enter Me.

New Consciousness is mandatory if we are to continue to survive as a species on our Planet today. The Time has never been more urgent to Return to the Natural time of the 13 moons.

This 13 Moon calendar that you hold in your hands contains a template of Unity.

Crystal is the tone of cooperation. Cooperation implies communication. Open communication is how we build bridges. Crystal seed is the year of the fulfillment of the Return of the People of OMA from across the bridge of time. We are the bridge. The Time is Now. OMA is the Original Matrix Attained.

The Original matrix is woven on Nature's intelligence. Intelligence implies a perception of patterns. The 13 Moon calendar offers a simple daily system to track multiple patterns of time. The effect is the increase of order, awareness and intelligence in your daily life.

Daily use also helps you to enter into a Universal consciousness that transcends dogma, religion, race, economic status and gender. Synchronicity will become your normal every-day experience.

If you are new to this, then just start with placing your awareness on the daily kin and build up from there. Contemplate the 260-day Tzolkin grid and visually allow yourself to feel its patterns created by the numbers 1-13 repeated 20 times.

The Tzolkin grid is a Harmonic Module that possess its own vibration, the fifth force. The fifth force is that galactic force that holds all dimensions of reality together. Every day has a fifth force oracle.

This year the fifth force oracle consists of) the Yellow Crystal Seed (galactic/karmic Jupiter), the guide kin - Yellow Crystal Warrior (solar/prophetic Saturn): Pathfinder that Universalizes Fearlessness; The analog partner - Blue Crystal Eagle (solar/prophetic Jupiter), the Seer that Universalizes Mind; The antipode power - White Crystal Wizard, who challenges us to enter Timeless Receptivity; and the occult partner (hidden support) - comes from the Red Lunar Earth (solar/prophetic Uranus), the Navigator that Stabilizes Synchronicity.

In the Hunab Ku 21 galactic archetypes Kin 64 represents the Crystal Innocent One. Innocence implies purity and non-corruptness. The Innocent establishes the Court of the Pathfinder and embodies the Awareness of Intelligence. No one can become wise without first encountering the Innocent One.

If we lay this year's oracle out on the Hunab Ku 21 board we see this oracle connects heptad paths 16 (Awareness evolves Timelessness), 17 (Awareness evolves Vision) 18 (Awareness evolves Intelligence) and 24 (Navigation evolves Intelligence).

The configuration of these heptad paths light up and connect the entire Power-Harmonic cell of Cosmic Intelligence! This is a potent sign of the power of the fifth force to manifest this year. The fifth force, when activated, unifies and radializes consciousness.

(Note: Telektonon prophecy of Pacal Votan was complete on Yellow Crystal Seed in In the First Year of Prophecy, Kin 144).

12:60 and 13:20

"... The 24-hour, 60-minute, 60-second timing frequency is derived from a 12-part division of the circle, a two-dimensional plane in space. Since this measure does not correspond to the reality of time as the universal (13 :20) frequency of synchronization, it creates a mental dissynchronization that manifests as the battle of the mind against itself, and against nature. The dynamic of the "progress" of civilization is really the dynamic of dissynchronization inherited by the human mind. The gradual encroachment of civilization into all aspects of human society and the biosphere increases the incidence of dissynchronization. The resulting aphasic mental states lead to belligerence and various attitudes of dominance over others and nature-but never to any satisfaction.

...According to the Law of Time all of the cosmic nature is all governed by a universal timing frequency, the 13:20. This universal timing constant demonstrates that time is actually the factor of synchronization, establishing what is known as the synchronic order. This means that if the collective human wishes to evolve into a more spiritual dimension it can only be through abandoning the artificial mechanistic time and participating again in the natural time. --Jose Arguelles/Valum Votan

SHOWING HEPTAD PATHS 1-4

The **Magnetic Moon** holds the power of Knowledge, completing its Heptad Path movement in the Court of the Avatar, coded by the Blue Hand (Knowledge). Learn more in [Book of the Timespace Cosmic History Chronicles Volume V](#). Meditate upon the codes of the Heptad Paths and see what comes to you...

The first Magnetic Moon relates to the Court of the Avatar and to the Planets Neptune- Dragon, Maldek- Serpent, Mars-Worldbringer and Earth Hand. The Mirror, again Neptune, second Portal to the Matrix, is the Reflection from the Source of the 3 experiments in the Galaxy nourished by the Primal Force. The Cosmic Knowledge that we get in this Court is the possibility to meditate on the Taboo of Sex and Death that were inherited as Galactic Karma for its transformation
