

Welcome to the Crystal Rabbit Moon of Cooperation, the twelfth moon of the Planetary service wavespell.

We are at a pivotal time where we are being given the opportunity to dissolve outdated belief systems, upgrade our perceptions and anchor this into our day-to-day reality. As the Old clears the way for the new, compulsory obligation must give way to authentic being.

This moon we include an excerpt from the forthcoming *Accessing Your Multidimensional Self: A Key to Cosmic History*. This is a synthesis of the seven volume *Cosmic History Chronicles* that were born through the alchemical union of male and female that births higher knowledge. This transmission is known as GM108X: Galactic Mayan Mind Transmission. The Galactic Maya are synchronic engineers that help guide events on planets and star systems to higher levels of operation.

Here is an excerpt from *Accessing Your Multidimensional Self* - Chapter 2: Becoming a Cosmic Thinker:

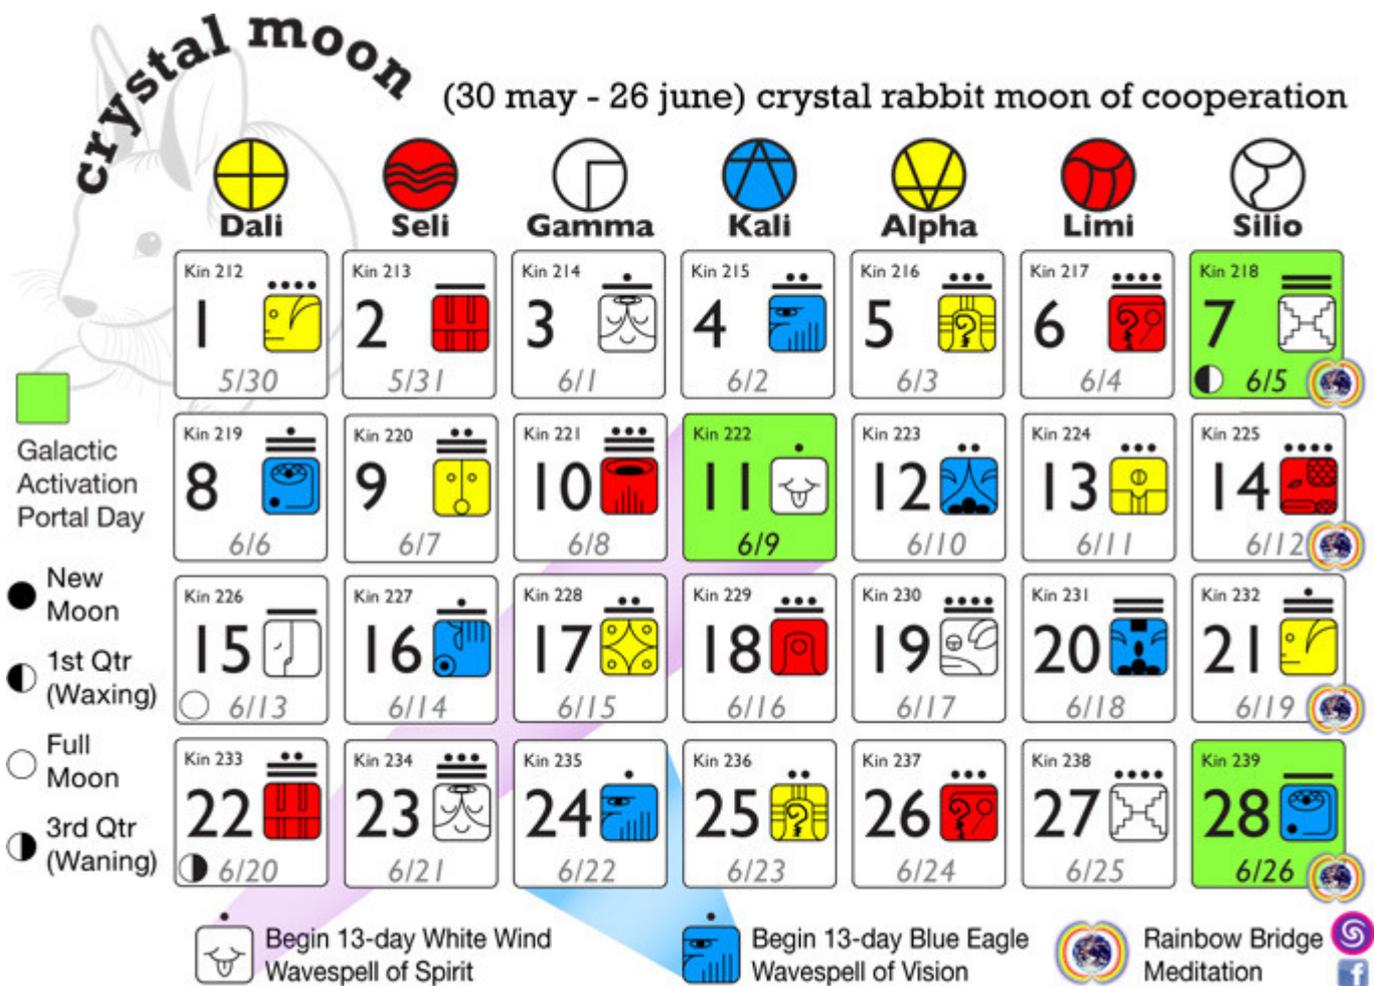

*To activate our dormant mind powers we must first lift our awareness and become cosmic thinkers. To become cosmic thinkers we must first cultivate clear mind and then begin to occupy our minds with thoughts such as the purpose of creation, the reason this planet exists, the reason we are on this planet, the reason for all created forms and the hidden forces and designs which underlie the world of manifestation.*

*As Swami Vivekananda says: "Human nature likes to run through the ruts that are already there, because it is easy." By settling for the easy path, we continue to recirculate unconscious analphs (thoughtforms). The Law of Time says that this is largely due to operating on a fictional third-dimensional timing frequency.*

*Conditioned thoughtforms are firmly etched sequences of a variety of analphs, electrical charges in the brain that carry stores of information commonly referred to as memories, forms of identity, or other sensations that arouse various patterns of conditioned behavior.*

*To become a cosmic thinker requires turning the mind away from social or national identification and daily dramas to concentrate on larger planetary issues. Cosmic or multidimensional thinkers are interested in what is beyond the reach of the five senses and in the questioning of all human possibilities. This way of thinking is summed up by Arthur Rimbaud:*

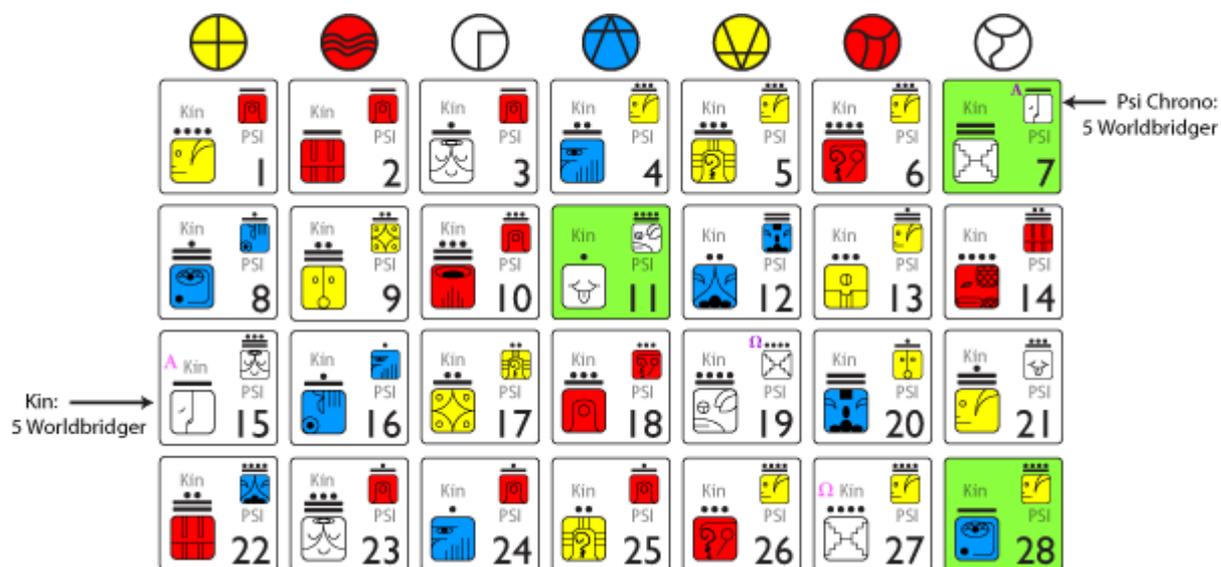

*"I wish to discover all secrets, the mysteries of religion, nature, death and birth, the future and the past, the formation of the universe, non-existence. I am a teacher in creating the extraordinary. Listen!"*

The 28 days of this Moon are all within the 52-day Green Central Castle of Enchantment - casting a spell of magic upon the whole Moon. Note that the Green Central Castle is also known as Merlin's tower...

This Moon also has an interesting structure considering the only three Galactic Activation Portals appear on day 7, 11 and 28. Day 7 is of course the last day of the first heptad/week, day 28 is of course the last day of the Moon. But day 11 is part of the "heart" of the 28-day Moon. Look carefully at the 28-day Moon and you'll see that days 11 and 18 of every Moon hold the center.

This Moon begins with the last 10 days of the Red Moon Wavespell of Universal Water, followed by the complete White Wind Wavespell of Spirit (the last day of which will be the Solstice) and concludes with the first 5 days of the Blue Eagle Wavespell of Vision.

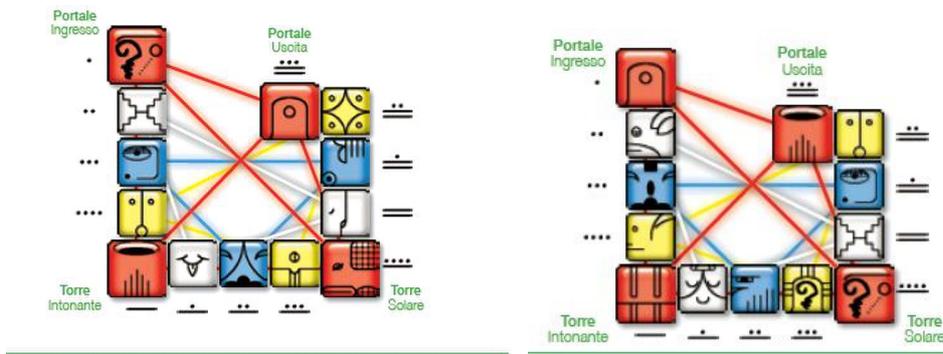

The graphic above shows both the Daily Kin and Psi Chrono Unit for every day of the Moon. Study the map closely and you'll see there are exactly 13 consecutive days (Days 7-19 of the Moon) where the Psi Chrono Unit (PCU) appears exactly 7+1 days before reappearing as the daily Kin.

This is a great opportunity to practice continuing (and noospheric) consciousness. If you are keeping a journal for the [144 Days to Star Remembrance](#) - starting on Silio 7, make note of the synchronicities you experience when the signature first appears as the Psi Chrono Unit, then see what happens eight days later when that same signature reappears as the Daily Kin... or better yet, plant a vision into the Psi Chrono Unit and see what flowers from it 8 days later!

This 13-day sequence takes us all the way to Limi 27 of the Moon, just before Silio 28 where the Moon closes out with the Blue Overtone Storm Galactic Activation Portal!

1. Overtone Worldbringer (PCU on Silio 7 - Daily Kin on Dali 15)
2. Rhythmic Hand (PCU on Dali 8 - Daily Kin on Seli 16)
3. Resonant Star (PCU on Seli 9 - Daily Kin on Gamma 17)
4. Galactic Moon (PCU on Gamma 10 - Daily Kin on Kali 18)
5. Solar Dog (PCU on Kali 11 - Daily Kin on Alpha 19)
6. Planetary Monkey (PCU on Alpha 12 - Daily Kin on Limi 20)
7. Spectral Human (PCU on Limi 13 - Daily Kin on Silio 21)
8. Crystal Skywalker (PCU on Silio 14 - Daily Kin on Dali 22)
9. Cosmic Wizard (PCU on Dali 15 - Daily Kin on Seli 23)
10. Magnetic Eagle (PCU on Seli 16 - Daily Kin on Gamma 24)
11. Lunar Warrior (PCU on Gamma 17 - Daily Kin on Kali 25)
12. Electric Earth (PCU on Kali 18 - Daily Kin on Alpha 26)
13. Self-Existing Mirror (PCU on Alpha 19 - Daily Kin on Limi 27)

In relation to the 2 wavespells of the year, that of the Red Galactic Earth, attracting the power of navigation and being able to flow in synchronicity, and the wavespell of the Red Magnetic Moon, attracting the power of purification and the possibility to redeem the theft of Time, this twelveth moon relates to the twelveth step of the wavespells, the Yellow Crystal Star and the Yellow Crystal Sun. We have the chance to dedicate ourselves to cooperation and to the universalization of Time as Art for the purpose to flow in synchronicity. At the same time attracting the universal waters of purification we can bring the universal fire and devote ourselves to light and life. .

As far as Aura-Soma is concerned we will connect to the Equilibriums 8 Anubis, 20 the Star Child, 12 Peace in the New Aeon. We can go through the threshold with Anubis only if our heart is as light as a feather and art beauty and elegance can help us to go deeper into the heart and find space, peace and joy and synchronicity. Then we become again children of the stars, universalizing solar consciousness and a New Aeon of Peace can start.
