

"Welcome to the Electric Deer Moon of Service, the third moon of the Planetary service wavespell.

Welcome to the activating Electric Moon of the first year of the New Beam! Take a step out of linear time and into the radial time of fourth/fifth-dimensional navigation...

You are not who you think you are, you are far more than that! It is time to Rise Up, Reclaim Your Star Lineage and Remember your Divine Mission. The Electric Moon invites you to activate your dormant powers on behalf of the Noosphere.

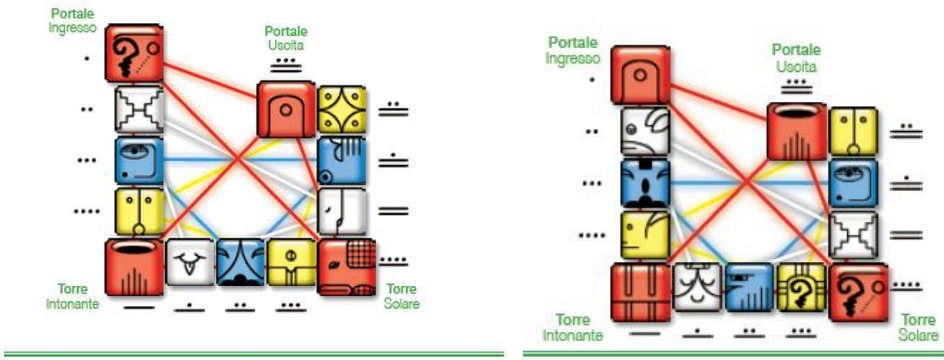

Activate your Heart! Activate your Mind! Activate your Magic! Activate your Discipline! Activate your Star Memory! Activate your DNA! Activate your Imagination! Activate Mission consciousness! A ho!

We each hold a unique facet of the Divine Plan. The Divine Plan is not merely for human beings. It is a cosmic ordainment. Everything is part of this Plan. It is just a matter of recognizing the patterns and signs and learning to dissolve yourself into the light of the ONE who sustains the All. We are undergoing an accelerated clearing of ancient karma activated by the New Galactic Beam (commenced on 26 July 2013). Everything is amplified. Everything is connected.

In the pulsar geometry, the third tone (and third moon) represents the first stage of the 3-7-11 second-dimensional sensory pulsar. The totem animal for this Moon is Deer reminding us to be gentle with ourselves and with others as we make our way through this unprecedented time of transition. It also reminds us that love and compassion for ourselves and others eases our journey and allows divine grace to flow into our lives. This is also the moon of service, so we might ask ourselves: How can I be a blessing for others? How can I be a synchronicity for someone else?"

Taken from the Noos-letter of the Law of Time

In relation to the 2 wavespells of the year, that of the Red Galactic Earth, attracting the power of navigation and being able to flow in synchronicity, and the wavespell of the Red Magnetic Moon, attracting the power of purification and the possibility to redeem the theft of Time, this third moon relates to the third step of the wavespells, the blue electric storm and the blue electric monkey. We have the chance to activate a great transformation and auto-generate new energy and at the same time do it with playfulness and magic.

As far as Aura-Soma is concerned we will connect to the Equilibriums 19, 11 and 3. We can live in the material world as spiritual beings, aware of the light we can bring and of our strength and developing compassion and acceptance for all that is. To do so we need to be in the space of the heart, opening it to the abundance of love, in service.
