

Welcome to the Planetary Dog Moon of Manifestation, the tenth moon of the Planetary Service Wavespell.

At this time, we are seeing major perturbations on the world stage as the interior psychic landscape is shifting. What is happening in the external world first begins in our collective mind.

[The Dynamics of Time](#) indicates that the human species is participating in an experiment within the free will zone of the galaxy. In this process, human consciousness has been imprisoned by a false perception of time that is perpetuating an illusory fence around its mind.

This false perception of time and material reality freezes our perceptions and emotions into the physical plane, creating neurosis and self-destructive vehicles on Earth.

The floodgates of repressed emotional energy release when we choose to take responsibility for our minds and exchange our illusions for a deeper experience of Essence.

This Moon's totem animal is dog, signifying love and emotions. In the pulsar geometry, the tenth tone is the final tone of the first-dimensional life pulsar that manifests the challenge. The main challenge is to master ourselves.

The gigantic catastrophes that threaten us today are not elemental happenings of a physical or biological order, but psychic events. To a quite terrifying degree we are threatened by wars and revolutions which are nothing other than psychic epidemics. At any moment several millions of human beings may be smitten with a new madness, and then we shall have another world war or devastating revolution. Instead of being at the mercy of wild beasts, earthquakes, landslides, and inundations, modern man is battered by the elemental forces of his own psyche. —Carl Gustav Jung

By untangling ourselves from the shackles of illusion, we enter ever-deepening states of wholeness and integration of our physical, emotional, spiritual and etheric bodies. Once this integration occurs, then we can explore higher planes of existence and co-creative capacities that allow us to unveil a new picture of reality and what's possible.

Valum Votan offers words of how to begin the process in [Galactic Meditation](#):

The beginning and the basis of this exploration (of new consciousness) must be through a complete purification of the mind. To purify the mind is to deepen the mind, is to lose the sense of the grasping self, the petty tyrant and thief who wants to interpret all experience right away by an unexamined and predetermined egoic structure of self. In contrast to this petty thief, is the all abiding timespace continuum of the galactic mind. This galactic timespace continuum is selfless, endless and ultimately timeless, though paradoxically realized only through a knowing of time.

10th Moon of the year of the White Planetary Wizard-how do I perfect what I do?

In relation to the service wavespell of the year, that of the Red Magnetic Serpent, attracting the power of Life Force, and to the wavespell of the Blue Magnetic Eagle, attracting the power of Vision, this **10th Moon** relates to the 10th step of the wavespells and manifests through the energies of **the White Planetary Wizard, kin 114, and the Yellow Planetary Seed, kin 244**

We can manifest our vital force and sexuality through the Wizard and his power of atemporality and with the help of Archangel Raguel heal all the shocks along the time line in relation to the exploitation of sexuality.. With the energy of the Seed we can manifest our vision of the seeds we want to plant and perfect our awareness

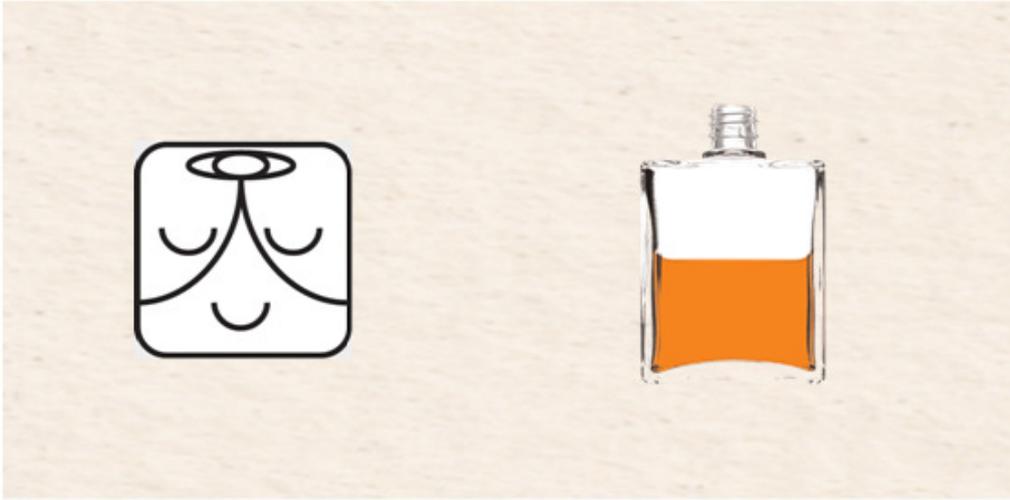

We will be supported in this task by the vital force of the serpent and the power of vision of the eagle.In Aura-Soma these codes relate to Equilibrium 114 Archangel Raguel that connects to the Archetype of the Wizard and the outward path of Temperance in the Tarot and Equilibrium 4, the sunlight bottle, the Outward Path of the Emperor in the Tarots and the Innocent in the 20 Galactic Archetypes..

B114 Archangel Raguel- Mid Tone Coral/Deep Magenta- is coded as kin 114, White Planetary Wizard, the energy of the current year. The Wizard manifests through the power of Atemporality, the purpose of the wavespell, the Red Magnetic Serpent, the vital force of the Kundalini energy that relates to Archangel Azreal, B 105, Iridescent Coral/Coral. It is from a point of No-Time that Raguel can be receptive and rescue the issues of the coral energy after they have been magnetized and attracted by Azreal, healing the time line, the genetic code of all our ancestors, and the Galactic Karma connected to the destruction of Maldek, the first experiment in our galaxy and the planet in our solar system that relates to the Asteroid Belt and the glyphs of the Serpent and the Wizard. Maldek is the symbol of the Life Force or Kundalini energy. In the sexual energy we find all the codes and programs of the unconscious mind. When the vital force is suppressed or misused a distortion happens that creates aggression, wars and the need to dominate and control. Working on the RNA-DNA we can let go all abuses in relation to sexuality, to women of all races and cultures, and rediscover the first cell of Love, that unified field of consciousness that exists before separation, and the power of the Goddess within. "Our body is a vehicle for Time Travelling, it is a Time Ship and is going through a process of mutation, and upgrade of our DNA, in the contest of an energetic upgrade of the whole cosmos" Azreal and Raguel, the Serpent and the Wizard, call back in time that first experiment in the galaxy, to manifest a possibility of rescuing it, bringing harmony, the reconciling energy of the Christ Consciousness, a new level of Wisdom, Love and Cooperation.
