

Welcome to the Galactic Hawk Moon of Integrity, the eighth moon of the Planetary Service Wavespell

In this Galactic Moon we are being called upon to rise to our highest integrity, to bypass the low frequency waves and access the inner Sun.

Our solar plexus chakra (our second brain)/kuxam suum is the access point to the inner Sun. This is also the departure and arrival point for interdimensional travel.

Through the solar plexus runs the umbilical cord that connects us to all of the cosmos. We can ride this umbilical cord backward in time, forward in time, to past lives or future lives; ultimately this is the cord by which we are always connected to Source. It is through reaching the Source that spontaneous healing occurs.

As the Dynamics of Time postulate 13.6 states: 'The solar plexus provides the locus of departure from and return to the third-dimensional body for the "displacement" of the alternative holon personality. This displacement is experienced internally as a "phase shift", a bifurcation of the constituent consciousness in which the activities of the alternative personality are perceived by the host organism as a waking dream or a form of telepathic ventriloquism'.

Through our cosmic umbilical cord we can ride the wave back to the sole atom. The sole atom is the divine blueprint of all chakras. Riding the cosmic umbilical cord back to the sole atom, we see that it is a plasmatic seed generator in the middle of all galaxies in the center of a black hole. The plasmas are not emitted by the black hole itself, but at a point near the center of the galaxy.

This sole atom replicates the same structure in each of the seven chakras of the human system and also corresponds to the resonant field model. In this galactic hawk moon let's work to reactivate the flow of our chakras to amplify our auric field (see Synchronogalactic Yoga).

Our duty is to organize and amplify a new spiritual healing energy field for Planet Earth. The core aspect of this work is the creation of an ever-increasing Light-Intelligence field that will permeate the planet with the divine harmony necessary to vibrate in the New Earth.

In the pulsar geometry, the eighth tone is the second tone of the third-dimensional mind pulsar (4, 8, 12). Ultimately we want to learn how to merge our electromagnetic fields with that of the Earth, creating an interactive force field. This force field establishes communication with both the core of the Earth and the noosphere

In relation to the 2 wavespells of the year, that of the Red Galactic Earth, attracting the power of navigation and being able to flow in synchronicity, and the wavespell of the Red Magnetic Moon, attracting the power of purification and the possibility to redeem the theft of Time, this eighth moon relates to the eighth step of the wavespells, the Yellow Galactic Seed (the energy of the whole year) and the Yellow Galactic Warrior. We have the chance to be aware of what seed we want to plant in the galaxy and find the courage to do it with our integrity.

As far as Aura-Soma is concerned we will connect to the Equilibriums 4, 16 and 8. We can grow in awareness as the Emperor that rules with knowledge, wisdom and integrity, has the courage to go for a total change of being, metanoia and for the destruction of the Tower of Babel and follows the Path of Justice. That gives him integrity and builds up his light body.
