

Welcome to the Resonant Monkey Moon of Attunement, the seventh moon of the Planetary service wavespell. How can I attune my service to others?

We have now entered the halfway mark of the first year of the New Beam. This year we are opening the first of the Seven Light Gates initiated on Galactic Synchronization and continuing through 2020. We are collectively writing the future.

We are now experiencing a slow motion timequake with many fluctuations and reroutings both on a personal and planetary scale. As old patterns dissolve, it is important to set aside regular quiet time to absorb the new frequencies streaming in to our planet, allowing them to settle and repattern your internal circuits.

Though it may feel like you "don't have time", quiet contemplation and restorative meditation enters you into the space that expands time and provides the answers you are seeking. Listen carefully to the inner messages that are calling from beyond the veil. It is from here that the future is being directed.

In the pulsar geometry, the seventh tone is the second tone of the 2D sensory pulsar (3, 7, 11). Here we are reminded that by quieting the incessant input of our five senses we activate the sixth sense and awaken to the planetary mind.

Through concentration and meditation we develop the capacity to "stay awake" to the bigger picture that is unfolding before us. This ability to sustain waking consciousness triggers self-reflection. The more conscious we are, the more self reflective. It is through self-reflective consciousness that we access the noosphere. "Taken from the Noos-letter of the Law of Time".

CULTIVATING INNER RADIANCE  
 PATH OF THE GALACTIC MASTERS  
 28-day mini-course

In relation to the 2 wavespells of the year, that of the Red Galactic Earth, attracting the power of navigation and being able to flow in synchronicity, and the wavespell of the Red Magnetic Moon, attracting the power of purification and the possibility to redeem the theft of Time, this seventh moon relates to the seventh step of the wavespells, the Blue Resonant Night and the Blue Resonant Eagle. We have the chance to be inspired by the abundance of our dreams and get in tune with our visions.

As far as Aura-Soma is concerned we will connect to the Equilibriums 3, 15 and 7. We can be as the Empress that channels the love that comes from Heaven and Earth, is in contact with its grid and magnetic structure and responsible for its beings. If we get in tune with the turquoise of our collective unconscious, become clear about the fears, the shadows we have inside, the Devil in us, a vision of the richness of our inner resources and of a new Atlantis may come and clarity in relation to our spirituality and service. We can get in tune with the mind of the planet and be creative once we heal what we may deny within ourselves. Then we can trust in the process of life, the hope in how things may unfold, what lies in the depths of ourselves and orient ourselves towards the right direction.
