

Welcome to the Overtone Peacock Moon! This is the fifth Moon of the Planetary Service Wavespell, holding the power of Radiance

In the pulsar geometry, the fifth tone is the fourth-dimensional Command Tower, directing us to Empower Ourselves to a collective Return to Essence.

The totem animal for this Moon is the Peacock, signifying beauty and resurrection. Peacocks are sometimes associated with the resurrection of Christ and the eyes in the peacock tails represent the all-seeing Eye of Horus. Horus is the son of Isis and Osirus.

## Wavespells of the year Red Solar Moon

The wavespell of the year, the Red Magnetic Dragon kin 1, is the first wavespell of the Tzolkin and of the Red Castle of Becoming, Court of Birth and represents the power of Birth, the action of nourishment and the essence of Being. It is also the beginning of the Genesis of the Dragon that started 26.000 years ago. We have the chance to give birth to ourselves and what we really need, through our the female, creative power and take care of our belly and the belly of the Earth, source of all life.

As far as Aura-Soma is concerned we will connect to the Equilibrium 1: the Physical Rescue. Bottle 1 will be a purification for the body while it nourishes the being. It is the first of the Major Arcana in the Tarots: the Magician. As Magicians we can start being aware we have all the elements in us, all the tools we can use to create and give birth to something new. We can have a fresh understanding of our role in the creative process of life. Our affirmation can be: I love life and life loves me.

It is the first of the 20 Archetypes of the Galactic Tree of Life, the Galactatron—the Initiator the Red Dragon.

The Primal Force of Cosmic Being. Holds the Marka Pole (upper pole) that controls the power of cosmic being and descends as cosmic knowledge. Opens the Universal Light Gate to the Court of the Avatar

In relation to the wavespells that followed the Closing of the Cycle and the 16 years of the Cube of the Law (1996-1997- 2012-2013) this is the second and relates to the White Magnetic Wind kin 222, in the Central Green Castle of Enchantment, Court of Matrix, that synchronizes the human.. Represents the power of Spirit, the action of Communication and the essence of Breath.

As far as Aura-Soma is concerned we will connect to the Equilibrium 2: the Peace Bottle.. Bottle 2 will be the possibility to bring peace in the depth of the self and in the conscious mind and to communicate this peace. To become a breath of peace. It is the second of the Major Arcana in the Tarots: the High Priestess. As a High Priestess we can let the Spirit speak through us and be a channel for a peaceful, nurturing energy.

It is the second of the 20 Archetypes of the Galactic Tree of Life, The High Priestess, **the White Wind. The Essence of Cosmic Spirit, Urania, The Spirit Breather** –Holds the Darka Pole (lower pole) that controls

the power of cosmic spirit that ascends as prophecy. Opens the Universal Light gate to the Court of the Prophet.

## Moons of the year Red Solar Moon

In relation to the service wavespell of the year, that of the Red Magnetic Dragon, attracting the power of Birth, and to the wavespell of the White Magnetic Wind, attracting the communication of the Spirit, this **Fifth Moon** relates to the fifth steps of the wavespells and their irradiating the purpose, **the Red Overtone Serpent, kin 5, and the White Overtone Worldbridger, kin 226** .

We can irradiate our vital force for the purpose of giving birth to something new, being aware that we also need to die in order to create new opportunities and be open to the communication of the spirit. We will be supported in this task by the receptivity of the magician and from the place of no time we can explore new spaces with the Skywalker. .

In Aura-Soma these codes relate to Equilibrium 5, the Sunrise, Sunset Bottle, and Equilibrium 6, the Energy Bottle, the Hierophant and the Lovers in the Tarots and the Initiate and the Hierophant in the 20 Galactic Archetypes

B5 The Sunrise/Sunset Bottle is the opportunity to utilize the vital, instinctual force of the Serpent wisely; to use the wisdom in relation to the energy that we carry.

It is the possibility to awaken to the Kundalini Force, the Serpent at the base of the spine, the source of light within the body. The Sunrise indicates the Initiation of creative forces journeying towards the crown.

As a challenge it may indicate difficult, abusive situations, emotional shocks we may have attracted.

Tarot; The Hierophant: Detached and controlled. Intellectual leadership. A representative of spiritual values. The ability to carry on to chosen goals despite distractions.

**Galactic Archetype: The Serpent.** *“I am the Serpent Initiate of Wisdom – Red Serpent. I am the First Gate of Power: Power of Sex.” Sex is the beginning of knowledge. The Serpent Initiate of Wisdom is the first to be initiated by the Primal Force Galactatron. By this initiation she gains the power to initiate and empower others in the timeless serpent wisdom that spans the world systems. The Serpent Initiate of Wisdom is the most ancient one; she is the possessor of all the hidden doctrines and mind treasures stored around the planet. In her is the storehouse of cosmic memory of previous world systems. She is instinctual, and her sexual power is the essence of her wisdom. She teaches through rites of initiation.*

B6: The Energy Bottle: Enthusiasm and love for life, that life force that arises when we are approaching death and will drive us towards a new life, in another world, or a new physical body in the 3D reality. It represents the potential of awakening to the whole of our physicality or to a new opportunity if we are able to be more detached, less identified, and let go, die to what has been, Red/Red like the Lovers in the Tarots connotes unification of the principle of male and female coming together. There is an inner equalization of these 2 basic energies, Ying and Yang, through their inner marriage.

Tarot: The choice between spiritual and physical/material. Relates to love and sexuality, separation and union. The possibility of fulfilment on all levels. A time to make choices.

***I am the Hierophant – White Worldbringer. I am the First Source of Power: Power of Death. Hierophant is the revealer of the sacred, the guardian of the store of death, the sacred source of knowledge.***

*Hierophant is the second to be initiated into the mystery of Cosmic being by the Primal Force Galactatron.*

*His power of death balances the Serpent Initiate's power of sex. Serpent Initiate is the generator of the red electrical circuit and the Hierophant is the terminal of the blue electrical circuit.*

*The Hierophant reveals the sacred power of the knowledge of death, and has authority to transmit this knowledge into the Avatar, and all, like the avatar seek to be the living embodiments of cosmic knowledge.*

*The Avatar can only teach by exemplifying.*

*I empower in order to equalize*

*Commanding opportunity*

*I seal the store of death*

*With the overtone tone of radiance*

*I am guided by the power of timelessness*

This Moon, all the planetary influences are in the four inner planetary orbits - Mars, Maldek, Jupiter and Saturn - the locus of the disruption in the heliocosm (see *Arcturus Probe* by Jose Arguelles). In the [Telektonon board](#) **Jupiter** and **Maldek** complete the *internalizing intelligence circuit* and **Mars** and **Saturn** complete the *externalizing intelligence*

The disrupted circuits represent the focalization of the karmic debris of all of the lost worlds as they are contained in the orbits of planets Maldek (the Asteroid Belt) and Mars. The repair of these circuits is a major purpose of the codes of the Law of Time and 13 Moon calendar. The repair/activation of these circuits represents the Sun's attainment of its next stage of evolution, and entry into cosmic civilization

Welcome to the Electric Deer Moon of Service!

This is the third moon of the Planetary Service Wavspell, holding the power of activation and bonding. This Moon begins with the Cosmic Serpent, sign of the transcendence of life force corresponding to the destroyed planet, Maldek.

<b>Electric Moon-At-A-Glance</b>

On Electric Moon 2 we enter the Worldbridger wavspell of death. Electric Moon 13, Kin 77: Red Crystal Earth (October 2) marks five spins (1300 days) since the tsunami that caused the meltdown at the Fukushima power plant in Japan. The country's nuclear reactors were switched off after the catastrophe, but now two reactors have been approved be switched back on by the Nuclear Regulatory Authority, despite regular earthquakes in the area.

Greenpeace Japan issued the statement:

"The government ... is ignoring the lessons of Fukushima and attempting to prevent the renewable energy revolution, trying to take the nation back to its dependence on dangerous and unreliable nuclear power," said Kazue Suzuki for the organisation.

On the planet holon, Japan is located in the Worldbridger zone, which corresponds to planet Mars. Kin 77 occurs precisely 21 days after the 13th anniversary of 9-11 and is also the 49th day of the [812-day cycle that began on August 15, 2014, Kin 29](#). 49 (7 x 7) is the number of days in the bardo of Tibetan buddhism.

Twelve days later on Kin **89** (October 14, 2014) marks five spins since the passing of Valum Votan. It was in **1989** that he made the groundbreaking discovery of the Law of Time. The Law of Time distinguishes between the artificial/mechanistic timing frequency (12:60) of modern human civilization, and the natural universal timing frequency of synchronization (13:20) characterizing the rest of life on Earth.

The Law of Time views the current multiple global crises as part of the inevitable biosphere-noosphere transition, marking the most significant stage in the whole of the evolution of life on Earth.

Valum Votan describes the shift into the noosphere:

"Foreseen as the evolutionary transformation of the biosphere into its next state or condition by its chief theorists, Vladimir Vernadsky and Pierre Teilhard de Chardin, the noosphere represents a radical shift of mind and consciousness. In fact, its advent is the commencement of the next stage of planetary evolution. By its nature it could only be brought about by a human participatory event.

"As the planetary mind, it is a vast and singular expression of but a single entity, the planet as a living system. From the human perspective, the noosphere represents the advance to universal telepathy. From the noosphere's perspective, its manifestation means the absorption of the individualized human units of consciousness into the functioning of but one mind in which all contradictions are resolved into higher harmonic perceptions."

## ***Star Traveler's Synchronicities***

Continuing our One Moon = One Kin count which began in the Magnetic Moon of the Yellow Overtone Seed Year (1997), this Electric Moon is the 224th Moon since that time, so it corresponds to

Kin 224, Yellow Electric Seed:

*I activate in order to target*

*ending awareness*

*I seal the input of flowering*

*With the electric tone of service*

*I am guided by the power of elegance*

Just as each daily kin has a fifth force oracle, we can also see what the [fifth force oracle](#) is for this whole Moon by looking at the oracle and planetary influences for the Yellow Electric Seed...
