

Welcome to the 2016 Resonant Monkey Moon Edition of the Noos-letter

The key to growth is the introduction of higher dimensions of consciousness into our awareness.

-Lao Tzu

Welcome to the Resonant Monkey Moon of Attunement, the seventh moon of the Planetary Service Wavespell.

In this time of rapid advancement of machine-based artificial intelligence, the Law of Time offers the inner technology of transformation. Both artificial intelligence and the system of the synchronic order point to a desire to go beyond the confines of human consciousness.

Presently the unconscious and subliminal conscious rule humanity. Human consciousness is self-restricted to the limitation of human experience. Superhuman consciousness is not dependent on being human. In other words, humans are capable of sustaining consciousness but consciousness is not intrinsically human.

Transhumanist thinkers study the potential benefits and dangers of emerging technologies that could overcome fundamental human limitations. Artificial intelligence and the accelerated advent of superhuman intelligence, was first proposed by the British cryptologist I. J. Good in 1965.

It has become appallingly obvious that our technology has exceeded our humanity. -Albert Einstein, Kin 260

The Law of Time seeks to access inner technology to give birth to a more intelligent version of ourselves. This inner technology requires effort to understand how our mind works, especially in this age of mass distraction.

It is estimated that the average person becomes distracted every 11 minutes. In this Resonant Moon of Attunement, lets work to eliminate the distractions and focus on the incoming signals of new consciousness.
