

# Welcome to the Solar Jaguar Moon of Intention, the 9th moon of the planetary service wavespell.

The 17th day of this moon (March 23) marks the four-year anniversary of the passing of Jose Arguelles. The final day of this moon, Yellow Cosmic Sun (April 3), culminates a most powerful 260-day cycle of the Red Solar Moon Year followed by a lunar eclipse. The totem for this Moon is the Jaguar pulsing intention and realization. What is realization?

Realization is a type of enlightenment that suddenly comes to one in connection with some phenomena. This phenomenon can be anything from the workings of the universe, to the creation of a star in the sky, to understanding the solution to a day to day problem.

At any moment we can have a new perception that can change the course of our life. New perceptions are accelerated with some type of practice or discipline.

Spiritual practice prepares us for different stages of realization. In one moment of direct Realization change occurs. For example Rene Descartes had a moment of realization in 1619 when he suddenly received the insight embodied in his famous statement: Cogito ergo sum.

This moment of enlightenment led to the philosophical foundation that underlies most of Western science. Sir Isaac Newton had a moment of realization when the apple fell to the ground and he discovered gravity. Martin Luther King had a moment of realization when he wrote his "I Have a Dream" speech. Jose Arguelles had a moment of realization when he discovered the Law of Time in 1989.

The point is that realization can come at any time. We all have had similar experiences. We can go about our daily lives and it sometimes appears that nothing really changes. Then one day we have a flash of realization and suddenly see new meaning and our perceptions change.

When this occurs it is as though the light from our inner self suddenly illuminates what had formerly been a world of shadows or veiled awareness. At this point a new territory of Spirit is made manifest in our daily reality. The synchronic codes provide maps into this new territory.

While realization can happen at any time, it is accelerated through preparation by means of reflection, studying, meditation, etc. Another way to prepare is to simplify. Get rid of everything that you do not need. Clear your space. Let go of old things. Move the energy. Make way for the new. Purify the body.

After one has prepared oneself, then realization can occur in the simplest most commonplace experiences.

“Our own self-realization is the greatest service we can render the world.” -Ramana Maharshi: Blue Overtone Monkey

“Self-realization is the knowing - in body, mind and soul - that we are One with the Omnipresence of GOD.” -Yogananda: White Spectral Wind

“Those who feel the unquenchable thirst for Something Different will be protected in a cocoon of light - to traverse all perils of the convulsions of the old and dying world - for in part of their being they already belong to that light, to the New World. And all one has dreamed to be the most beautiful, the most marvellous; the most fantastic is nothing compared with what will be realized.” - The Mother: White Solar Dog
