

Welcome to the Spectral Serpent Moon of Liberation! This is the eleventh moon of the Planetary Service Wavespell.

The Spectral Moon calls on us to dissolve and transmute lower forces and emotions into higher states of being and action. With multiple forces at play this has been a challenging time for many. Our planet contains the most primitive level of consciousness. It is a gathering place of souls from numerous world systems, many of which are "lost in time."

We are here to remember. Remember what? The original mission. Earth is a tiny spot in the solar system and solar system is a tiny spot in the cosmos. The whole cosmos is guided by an Unseen Force. To understand this force we must lift our mind above the time distortion matrix, balance our emotional body and educate ourselves regarding the inner and outer nature of the reality we now find ourselves in.

When making our way through the planetary densities, it is beneficial to **stay active** (making energetic progress in the good), **stay connected** and **stay focussed** on the highest outcome for all. The Spectral Moon opens with Heptad 41: Sex spectralizes Vision.

In the pulsar cosmology of the wavespell, the eleventh position or tone completes the second dimension sense pulsar that began in the third moon, the Electric Moon of Service. In this 11th position we dissolve and liberate all thought and levels of consciousness that impede our highest attunement to the Cosmos. We are each a powerful microcosm of the cosmic whole that extends from Human, to Planet, Solar System, Galaxy, Universe(s), and Cosmos.

The totem for this moon is the Serpent. The 13th sign of the zodiac, Ophiuchus - "the serpent bearer", is positioned northwest of the center of the Milky Way opposite Orion. Ophiuchus is identified with Asclepius, an ancient physician and powerful healer known to restore the dead to life. Be alert to harness the potent healing energies made available with the New Moon on Spectral Moon 17 (May 18) coded by the **Red Rhythmic Serpent**. Now is the time to release the museum of the past and enter once again into the starry remembrance of galactic consciousness.
